JOB DESCRIPTION

Job Title: PQC Specialist
Name: Jesper Fredriksson
Career band: P2
Job Location: Solna Sweden
Date Written: 2024-11-29
Written By: Jean-Christian Zirignon

POSITION SUMMARY:

The PQC Specialist works closely with the PQC management to improve processes and routines within the PQC organization. Key responsibilities include updating quality documents and SOP:s, and improving quality processes using the DBS framework including tools such as 5S, PSP, VMDM and Kaizen. The Specialist is responsible for initiating, leading, coordinating and supporting projects and activities relating to the PQC department. This is done as team lead, SME, core team member, extended core team member or other applicable leading and supporting roles. Improvements should be data driven based on the specialist's own analysis using applicable sources and tools. The Specialist has a key responsibility to be a communications channel between PQC and other local departments such as, but not limited to, other quality departments, manufacturing and operations.
The specialist role requires regular presentations and public speaking using self-produced material and data, to both local and global stakeholders.

Essential Job Responsibilities:

- Updating quality documents and SOP:s
- Improving quality processes using the DBS framework
- Drive improvements through applicable data based sources and tools
- Initiating, leading, coordinating and supporting projects and activities relating to the PQC department
- Communicate with other departments regarding projects, processes and technical inquiries

MINIMUM REQUIREMENTS:

Education or Experience (in years):

- University degree in Biomedicine, molecular biology or chemistry or working experience that is considered to contribute equally.

Training Responsibilities

- *Complete all assigned and required training satisfactorily and on time*

Knowledge and Skills

- Proficiency in Molecular Biology Techniques and preferably experience from real time PCR
- Strong written and verbal communication skills in English
- Experience in handling biological and chemical materials
- Able to work independently and interface efficiently with multiple disciplines within different functional groups
- Organized and methodical
- Multi-tasking and ability to shift tempo
- Computer skills including the office package
- Communication skills
- Planning skills

Other

- N/A

Physical requirements/abilities:

- N/A

PREFERRED REQUIREMENTS (optional):

JOB EVALUATION

The information you provide on the following pages will be used to evaluate the job's position within Cepheid's hierarchy.

IMPACT:

*Select the statement that best describes the impact of the actions or decisions made by the job (**please select only one**):*

Decisions are typically **short term** and only affect the output of the job.	☐
Decisions affect a **small work team** or jobs in the immediate work area.	☒
Decisions affect a **department**.	☐
Decisions affect a **business unit**.	☐
Decisions affect the **entire organization**.	☐

REVENUE ACCOUNTABILITIES:

Provide qualitative information related to the position's scope and job impact. If not applicable, indicate "n/a".

Examples:

Individual – Responsible for meeting individual monthly revenue goal for one product line in the Northeast US. Revenue impacts the total product line revenue target for North America.
Team (people managers only) – Responsible for meeting worldwide revenue target of Business Unit. Revenue impacts worldwide corporate revenue target.

Individual revenue accountability
N/A
Team revenue accountability (people managers only)
N/A

COMMUNICATION:

Indicate the primary **internal and external contacts** with whom the position interacts on a regular and recurring basis, and the purpose / nature of the relationship.

- Exclude communication with the immediate supervisor and subordinates.
- Communication may be written or verbal.
- Consider parties such as customers, suppliers, other departments, and regulatory agencies.

Nature of the Communication. This will include the following options.

- **Convey:** communicate information by statement, suggestion, gesture, or appearance.
- **Adapt and Exchange**: reach agreement through flexibility and compromise.
- **Influence**: effect change without direct exercise of command where persuasion is required.
- **Negotiate:** come to agreement by managing communications through discussion and compromise; issues are short-term operational, medium-term tactical or limited strategic nature.
- **Negotiate long-term**: manage communications of great importance having long-term, strategic implications for the entire organization.

Examples:

Internal – Convey and communicate project status to team members; Exchange information with the Engineering department and agree on change
External – Influence customers on purchase decisions; Negotiate contract prices with vendors

Internal contacts and nature of the communication
Contacts with different departments within the company to exchange information and influence outcomes.
External contacts and nature of the communication
Convey information to global stakeholders.

INNOVATION:

Innovation relates to the **requirements** of the position to identify and make improvements to procedures, services or products. Innovation also relates to the **requirements** to develop new ideas, methods, techniques, services and products.

Examples:

Follows– Receptionist, Material Handler
Corrects– General Accountant, Scientist,
Modifies – Accounting Manager, Regional Sales Manager
Improves – Engineering Director, Clinical Affairs Director

Select only one of the following:

Follows instructions, processes and procedures.	☐
Corrects and resolves issues/problems in processes with the help of existing procedures, norms and processes.	☐
Modifies existing processes by correcting problems, resolving issues and updating existing work methods.	☒
Improves or adapts existing processes by correcting problems and resolving issues.	☐

TEAMS:

Responsibility for managing others means that the role assigns and schedules the work of others, conducts formal performance reviews and has hiring and firing responsibilities over direct reports. Indicate the job's responsibility for managing others (**select one only**)

Team Member (contributes individually)	☒
Team Leader (less than 3 team members)	☐
Team Leader (3 or more team members)	☐
Team Manager (directs through 1 Team Leader)	☐
Multiple Team Manager (directs through multiple Team Leaders)	☐

BREADTH OF RESPONSIBILITY:

Indicate **the geographic scope** of the job responsibility (**select one only**):

Local – One location	☒
Domestic – Multiple locations within a single country	☐
Regional – Multiple locations across more than one region	☐
Multi Region – Responsibility across more than one region (e.g., EMEA, APAC, Latin America, North America)	☐
Global - Global responsibility	☐
